Re: Paper test reports on NV series of power supplies

For every 100,000 NV power supplies that we produce, it is estimated that twelve trees are cut down just to supply paper test certificates. Many of those test certificates are not required by customers, creating further waste.

To help preserve the environment, Lambda is going to a paperless web-based system. Customer wishing to view test reports can visit the NV web-page and if necessary print a copy using paper or an electronic method.

If you wish to review the web-page please go to:

<http://testcert.lambda-europe.com/TestCert/>

Enter Product code:- NV1-453TT and Serial number:- 8051160024

It is anticipated that the transfer to a paperless system will be complete by March 2007.

We thank you for helping Lambda conserve our environment.

Sincerely,

A handwritten signature in black ink, appearing to read "DNorton".
